NEWS RELEASE-LAFAYETTE TRANSIT SYSTEM (LTS) DELAYS

EVENT: LCG Transit – Delays

DATE & TIME: April 3, 2020

ORGANIZATION: Transit Division
Public Works Department

CONTACT: Lafayette Transit Business Office
Terri Morgan, Transit Supervisor
(337) 291-8570

Lafayette Consolidated Government's Department of Public Works, Transit Division has announced today, as an additional precaution associated with the Coronavirus (COVID-19), staffing will be modified on the fixed service routes. Every effort is being made to maintain the excellent level of service previously offered while still minimizing the risk to our employees and passengers. Therefore, effective Monday, April 6, 2020, LTS will begin running nine (9) buses during the daytime hours from 5:45 am – 5:15 pm. These routes will mirror the Night Owl routes. However, routes will have 30 minute headways. Additionally, Route 20 will be run every hour beginning at 6:15 am, with final departure at 4:15 pm.

Night Owl Service will begin at 5:30 pm and run until 9:30 pm with final departure at 8:30 pm.

LTS will continue to take every precaution possible associated with the Coronavirus (COVID-19), including disinfection of the buses and minimizing seating on the buses to better conform to the social distancing policy. These precautions will take place as long as necessary.

Transit Division

LTS is taking the extra precaution of having passengers board and disembark through the back of the bus in an effort to minimize driver/passenger contact. Fares are also being waived in an effort to lessen the burden to our passengers during this trying time.

For more information regarding the amended bus schedules and routes, please visit: www.ridelts.com

LTS staff greatly appreciates your patience and understanding.
